

ISO 19600 Course

Course Duration: 16 Hrs.

Course Code: ISO19600-001

Course Overview

The ISO 19600 Course provides participants with an understanding of the principles and guidelines for establishing, developing, implementing, evaluating, maintaining, and improving an effective Compliance Management System (CMS) based on ISO 19600. The course is designed to help organizations ensure compliance with legal requirements, ethical standards, and internal policies while fostering a culture of integrity and accountability.

What you'll learn?

Participants will learn the key concepts and framework of ISO 19600, including compliance risk assessment, monitoring, internal controls, and continuous improvement. The course also covers the development of compliance policies, procedures, and programs to mitigate risks and support organizational governance.

Target Audience

This course is suitable for compliance officers, legal advisors, auditors, managers, consultants, and professionals responsible for implementing or managing compliance management systems within their organizations. It is also ideal for individuals seeking foundational knowledge of ISO 19600 to enhance organizational compliance practices.

Pre-Requisites

There are no formal prerequisites for this course. However, familiarity with legal compliance, corporate governance, or management systems will be beneficial for participants.
