

ISO 22301:2019 Transition Course

Course Duration: 16 Hrs.

Course Code: ISO22301-TRN

Course Overview

The ISO 22301:2019 Transition Course is designed to provide participants with a comprehensive understanding of the changes introduced in the 2019 revision of the ISO 22301 standard for Business Continuity Management Systems (BCMS). The course helps professionals transition from the previous version to the updated standard, ensuring compliance with new requirements while strengthening organizational resilience.

What you'll learn?

Participants will learn the key updates in ISO 22301:2019, including the revised structure aligned with the High-Level Structure (HLS), clarified requirements, and enhanced focus on business continuity performance and outcomes. The course covers practical steps for implementing these changes and preparing organizations for a smooth transition to the updated standard.

Target Audience

This course is suitable for business continuity managers, risk managers, auditors, consultants, and professionals responsible for maintaining or implementing a BCMS. It is also ideal for organizations transitioning from ISO 22301:2012 to ISO 22301:2019.

Pre-Requisites

Participants should have prior knowledge of ISO 22301:2012 or experience in business continuity management. Familiarity with management system standards and auditing practices will be an added advantage.

Course Content

Module 1: Overview of ISO 22301 and Key Concepts of BCMS

Module 2: Transition from ISO 22301:2012 to ISO 22301:2019

Module 3: High-Level Structure (HLS) and Its Impact on BCMS
