

ISO 27001:2022 Internal Auditor Course

Course Duration: 16 Hrs.

Course Code: ISO27001-IA

Course Overview

The ISO 27001:2022 Internal Auditor Course equips participants with the knowledge and skills required to perform internal audits of an Information Security Management System (ISMS) based on the latest ISO/IEC 27001:2022 standard. It provides a comprehensive understanding of audit principles, techniques, and best practices to ensure compliance, effectiveness, and continual improvement of ISMS.

What you'll learn?

In this course, you will learn how to plan, conduct, and report internal audits in alignment with ISO 27001:2022 requirements. You will gain insights into information security controls, risk management processes, audit methodologies, and how to identify non-conformities while providing recommendations for improvement.

Target Audience

This course is designed for professionals responsible for conducting, managing, or supporting ISMS internal audits. It is ideal for information security officers, compliance managers, IT professionals, auditors, and individuals preparing for an internal auditor role.

Pre-Requisites

There are no mandatory prerequisites for this course. However, a basic understanding of information security concepts and familiarity with ISO/IEC 27001 principles is recommended.

Course Content

Module 1: Overview of ISO/IEC 27001:2022 and ISMS framework

Module 2: Principles and fundamentals of auditing

Module 3: Audit planning, preparation, and execution

Module 4: Conducting internal audits of ISMS processes and controls

Module 5: Identifying non-conformities and reporting audit findings

Module 6: Corrective actions and continual improvement

Module 7: Roles and responsibilities of internal auditors

Module 8: Practical exercises and case studies
