

ISO 37301 Lead Implementer Course

Course Duration: 40 Hrs.

Course Code: ISO37301-LI

Course Overview

The ISO 37301 Lead Implementer Course is designed to equip participants with the knowledge and skills required to establish, implement, manage, and maintain an effective Compliance Management System (CMS) in accordance with ISO 37301. The course provides a structured approach to compliance management, enabling organizations to meet regulatory requirements, mitigate risks, and foster a culture of integrity and accountability.

What you'll learn?

Participants will learn how to interpret and apply ISO 37301 requirements, develop compliance policies and procedures, conduct risk assessments, and implement controls to ensure organizational adherence to legal and regulatory obligations. They will also gain practical skills in managing a CMS, monitoring compliance performance, and preparing for audits and certification.

Target Audience

This course is intended for compliance officers, risk managers, auditors, legal professionals, consultants, and managers responsible for implementing or overseeing compliance management systems. It is also suitable for professionals seeking to advance their careers in governance, risk, and compliance (GRC) or pursue ISO 37301 certification.

Pre-Requisites

Participants are recommended to have a basic understanding of compliance, risk management, or organizational governance. Prior experience with

management systems or completion of a foundation-level ISO 37301 course is beneficial but not mandatory.
