

ISO 45001 Lead Auditor Course

Course Duration: 40 Hrs.

Course Code: ISO45001-LA

Course Overview

The ISO 45001 Lead Auditor Course is designed to equip participants with the knowledge and skills required to plan, conduct, and manage audits of an Occupational Health and Safety Management System (OHSMS) based on ISO 45001 requirements and ISO 19011 guidelines. The course focuses on evaluating the effectiveness of workplace safety management systems, ensuring compliance, and promoting a culture of continual improvement in occupational health and safety.

What you'll learn?

Participants will learn how to interpret ISO 45001 requirements in the context of an audit, apply auditing principles and techniques, plan and execute audits, and report findings accurately. They will gain expertise in identifying nonconformities, recommending corrective actions, and leading audit teams effectively to improve workplace health and safety performance.

Target Audience

This course is intended for safety managers, auditors, compliance officers, occupational health professionals, consultants, and project managers responsible for conducting or overseeing OHSMS audits. It is also suitable for professionals seeking to become certified ISO 45001 Lead Auditors or enhance their knowledge of occupational health and safety auditing.

Pre-Requisites

Participants are recommended to have a basic understanding of occupational health and safety management systems or prior auditing experience.

Completion of an ISO 45001 Foundation course or relevant professional experience is beneficial but not mandatory.
