

ISO 9001 Lead Auditor Course

Course Duration: 40 Hrs.

Course Code: ISO9001-LA

Course Overview

The ISO 9001 Lead Auditor Course is designed to provide participants with the knowledge and skills to plan, conduct, and manage quality management system (QMS) audits based on ISO 9001 requirements and ISO 19011 guidelines. This course enables professionals to evaluate the effectiveness of a QMS, ensure compliance, and lead audit teams to drive continual improvement in organizational quality practices.

What you'll learn?

Participants will learn how to interpret ISO 9001 requirements in the context of an audit, apply auditing principles and techniques, prepare audit plans, conduct internal and external audits, and report findings effectively. They will also gain the expertise to identify nonconformities, recommend corrective actions, and manage audit teams with impartiality and professionalism.

Target Audience

This course is intended for quality managers, auditors, consultants, compliance officers, project managers, and professionals seeking to conduct or lead QMS audits. It is also valuable for individuals aiming to pursue a career as a certified ISO 9001 Lead Auditor or enhance their expertise in quality management auditing.

Pre-Requisites

Participants are recommended to have a basic understanding of ISO 9001 standards, quality management principles, or prior auditing experience.

Completion of an ISO 9001 Foundation course or practical exposure to quality management systems is beneficial but not mandatory.

Course Content

Module 1: Introduction to ISO 9001 and the fundamentals of QMS auditing

Module 2: Understanding audit principles, standards, and ISO 19011 guidelines
