

ISO 9001 Lead Implementer Course

Course Duration: 40 Hrs.

Course Code: ISO9001-LI

Course Overview

The ISO 9001 Lead Implementer Course is designed to equip professionals with the knowledge and practical skills required to establish, implement, manage, and maintain a Quality Management System (QMS) in accordance with ISO 9001 requirements. This course provides a structured approach to quality management, focusing on process efficiency, customer satisfaction, and continual improvement, enabling participants to lead successful QMS implementation projects.

What you'll learn?

Participants will learn how to interpret and apply ISO 9001 requirements, develop a QMS framework, conduct risk-based thinking, and design quality policies and objectives. They will gain expertise in implementing quality processes, ensuring compliance with ISO 9001 standards, preparing for certification audits, and driving a culture of quality and continual improvement within their organizations.

Target Audience

This course is intended for quality managers, consultants, compliance officers, project managers, auditors, and professionals responsible for developing or managing a QMS. It is also suitable for individuals seeking to advance their careers in quality management or play a key role in ISO 9001 certification projects.

Pre-Requisites

Participants are recommended to have a basic understanding of quality management principles or relevant professional experience. Prior knowledge of ISO 9001 standards or completion of a foundation-level course will be beneficial but not mandatory.

Course Content

Module 1: Introduction to ISO 9001 and QMS fundamentals
