

ISO/IEC 27001 Lead Auditor Course

Course Duration: 40 Hrs.

Course Code: ISO27001-LA

Course Overview

The ISO/IEC 27001 Lead Auditor Course is designed to provide participants with the expertise to plan, conduct, and manage audits of an Information Security Management System (ISMS) in compliance with ISO/IEC 27001 requirements. This course equips professionals with in-depth knowledge of auditing principles, techniques, and best practices, enabling them to evaluate ISMS effectiveness and lead audit teams successfully.

What you'll learn?

Participants will learn how to interpret ISO/IEC 27001 requirements in the context of an audit, manage the entire audit process, identify nonconformities, and provide actionable recommendations. They will gain practical skills in audit planning, execution, reporting, and follow-up, as well as understanding how to lead audit teams and ensure impartiality and objectivity throughout the audit process.

Target Audience

This course is intended for information security auditors, compliance managers, IT and ISMS professionals, risk managers, consultants, and anyone aspiring to conduct or lead ISMS audits. It is also beneficial for professionals seeking to strengthen their expertise in auditing and pursue a career as a certified ISO/IEC 27001 Lead Auditor.

Pre-Requisites

Participants are expected to have a basic understanding of ISO/IEC 27001 standards, information security concepts, or prior auditing knowledge. Completion of an ISO/IEC 27001 Foundation course or relevant experience in ISMS or auditing practices is recommended for effective learning.

Course Content

Module 1: Introduction to auditing concepts and ISO/IEC 27001 framework

Module 2: Understanding ISMS audit principles and practices
