

ISO 14001 Lead Auditor Course

Course Duration: 40 Hrs.

Course Code: ISO14001-LA

Course Overview

The ISO 14001 Lead Auditor Course is designed to provide participants with the knowledge and skills required to plan, conduct, and manage audits of an Environmental Management System (EMS) in compliance with ISO 14001 requirements and ISO 19011 guidelines. The course focuses on evaluating environmental performance, ensuring regulatory compliance, and promoting continual improvement within organizations' environmental management practices.

What you'll learn?

Participants will learn how to interpret ISO 14001 requirements in the context of an audit, apply auditing principles and techniques, plan and execute EMS audits, and report findings effectively. They will gain expertise in identifying nonconformities, recommending corrective actions, and leading audit teams to enhance environmental performance and sustainability.

Target Audience

This course is intended for environmental managers, auditors, compliance officers, consultants, project managers, and professionals responsible for conducting or overseeing EMS audits. It is also suitable for individuals seeking to become certified ISO 14001 Lead Auditors or enhance their knowledge of environmental management auditing.

Pre-Requisites

Participants are recommended to have a basic understanding of ISO 14001 standards, environmental management concepts, or prior auditing experience. Completion of an ISO 14001 Foundation course or relevant professional experience is beneficial but not mandatory.

Course Content

Module 1: Introduction to ISO 14001 and EMS auditing principles

Module 2: Understanding audit standards, ISO 19011 guidelines, and ISO 14001 requirements

Module 3: Planning and preparing for EMS audits
