

ISO 21504: Project and Programme Portfolio Management Course

Course Duration: 40 Hrs.

Course Code: ISO21504-PPPM

Course Overview

The ISO 21504: Project and Programme Portfolio Management Course is designed to provide a thorough understanding of the principles, practices, and guidelines outlined in ISO 21504. It equips participants with the knowledge and skills to effectively manage portfolios of projects and programmes, aligning them with organizational strategy, optimizing resource allocation, and ensuring maximum value delivery.

What you'll learn?

Participants will learn how to interpret and apply ISO 21504 requirements, establish a structured framework for portfolio management, and enhance decision-making processes. The course covers portfolio governance, prioritization, risk management, performance measurement, and stakeholder engagement, enabling professionals to drive strategic alignment and organizational success.

Target Audience

This course is ideal for portfolio managers, programme managers, project managers, PMO directors, senior executives, consultants, and anyone involved in strategic planning, decision-making, or oversight of multiple projects and programmes within an organization.

Pre-Requisites

A foundational understanding of project and programme management concepts is recommended. Prior knowledge of management system standards or practical experience in portfolio or programme management will be advantageous but is not mandatory.
