

IFRS Leasing with SAP Contract and Lease Management for SAP S/4HANA

Course Duration: 24 Hours

Course Code: IFRS

1. Course Overview

The **IFRS Leasing with SAP Contract and Lease Management for SAP S/4HANA** course provides a deep understanding of how SAP supports compliance with **IFRS 16 and ASC 842** leasing standards. This course focuses on the configuration and use of **SAP Contract and Lease Management (CLM)** in SAP S/4HANA to manage lease contracts efficiently and ensure financial transparency. Learners will explore contract creation, classification, valuation, and reporting processes while gaining insights into how SAP helps businesses automate and streamline lease accounting.

2. What You'll Learn

- Fundamentals of **IFRS 16 and ASC 842** leasing regulations.
- End-to-end lease lifecycle management using SAP CLM.
- Configuration of contract types, conditions, and valuation rules.
- Lease classification and accounting entries in SAP S/4HANA.
- Integration of lease data with SAP Finance (FI) and Controlling (CO).
- Reporting and disclosure requirements using SAP tools.

3. Target Audience

- Application consultants in finance and controlling.
- Finance professionals responsible for compliance and reporting.
- Project team members involved in SAP S/4HANA Finance implementations.
- Learners preparing for specialization in **SAP Financial Accounting**.

4. Pre-Requisites

- Basic knowledge of financial accounting and leasing principles.
- Recommended: Completion of **SAP S/4HANA Finance overview courses**.
