

TS410 Integrated Business Processes in SAP S/4HANA

Course Duration: 80 Hours

Course Code: TS410

1. Course Overview

The **TS410 – Integrated Business Processes in SAP S/4HANA** course provides a comprehensive introduction to the core business processes supported by SAP S/4HANA. It helps learners understand how various SAP modules integrate to support end-to-end business operations. The course covers finance, logistics, and human resources processes while showcasing how SAP S/4HANA enables real-time analytics and simplified workflows.

2. What You'll Learn

- End-to-end integration of SAP S/4HANA modules.
- Core processes in Financial Accounting (FI), Controlling (CO), Procurement, Sales, Production Planning, and Warehouse Management.
- Interaction of organizational units, master data, and transactions.
- Introduction to SAP Fiori apps for modern user experiences.
- Basics of analytics and reporting in SAP S/4HANA.

3. Target Audience

- Application consultants
- Business process owners and team members
- Project managers and IT professionals

- Learners preparing for **SAP S/4HANA Application Associate certification**

4. Pre-Requisites

- Basic knowledge of business processes
- General IT literacy recommended
- Prior SAP knowledge helpful but not mandatory
