

UX100 - SAP Fiori Foundation

Course Duration: 40 Hours

Course Code: UX100

1. Course Overview

- The **UX100 - SAP Fiori Foundation** course provides a **comprehensive introduction to the SAP Fiori user experience (UX)**. It is designed to help learners understand how **SAP Fiori simplifies and personalizes the user experience across SAP S/4HANA and other SAP applications**. This course covers the **concepts, architecture, design principles, and configuration** of SAP Fiori, enabling administrators, consultants, and developers to work effectively with Fiori apps.

2. What You'll Learn?

- Understand **SAP Fiori concepts, benefits, and UX strategy**
- Explore the **SAP Fiori design guidelines and app types**
- Learn **SAP Fiori architecture** and deployment options
- Configure and use the **SAP Fiori Launchpad**
- Explore **SAP UI technologies (SAPUI5, OData, Gateway)**
- Understand **roles, authorizations, and security aspects** in Fiori
- Get an overview of **SAP Fiori apps for SAP S/4HANA**
- Perform **basic administration and troubleshooting** for Fiori

3. Target Audience

- **Application Consultants**
- **System Administrators**
- **UX Designers**
- **SAP Fiori Developers (beginners)**
- **Business Process Experts**

4. Pre-Requisites

- Basic knowledge of **SAP S/4HANA navigation**
- Familiarity with **SAP system architecture** is helpful but not mandatory
