

SAP Datasphere, SAP BW Bridge

Course Duration: 32 Hours

Course Code: DSPBW

1. Course Overview

The **SAP Datasphere, SAP BW Bridge** course is designed to help professionals understand how to extend their existing SAP BW assets into the SAP Datasphere environment. This training provides knowledge on integrating, modeling, and managing data from SAP BW systems while leveraging SAP Datasphere's modern cloud-based capabilities. Participants will learn how to ensure a seamless transition, optimize data integration, and build a hybrid data management strategy.

2. What You'll Learn?

- Understand the concept and architecture of SAP Datasphere and SAP BW Bridge
- Connect SAP BW systems to SAP Datasphere
- Replicate and transform BW data into Datasphere
- Manage hybrid scenarios combining SAP BW and Datasphere
- Apply modeling techniques within the SAP BW Bridge environment
- Best practices for migration and integration strategies

3. Target Audience

- Data Architects
- SAP BW Consultants
- SAP Analytics Professionals
- Data Integration Specialists
- IT Managers working with hybrid cloud environments

4. Pre-Requisites

- Basic knowledge of SAP BW/4HANA or SAP BW on HANA
- Understanding of data warehousing and modeling concepts
- Familiarity with SAP Analytics Cloud (recommended)

5. Course Content

Module 1: Introduction to SAP Datasphere and BW Bridge

Module 2: System Architecture and Connectivity

Module 3: Replication of BW Data into Datasphere

Module 4: Data Modeling and Transformation in BW Bridge

Module 5: Hybrid Scenarios and Use Cases

Module 6: Monitoring, Administration, and Security

Module 7: Best Practices for Migration and Integration
