

# PRINCE2 7 Foundation Course

**Course Duration: 40 Hrs.**

**Course code: P2 7F**

## Course Overview

The PRINCE2 7 Foundation course introduces learners to the latest version of the PRINCE2 methodology, a globally recognized standard for project management. This course provides a clear understanding of the PRINCE2 principles, practices, and processes, enabling learners to confidently participate in and support project delivery. It covers updated concepts like sustainability, digital project environments, and people management in projects, aligning with modern business needs.

## What you'll learn?

The course will help students to understand:

- Understand the fundamentals of PRINCE2 7 methodology.
- Learn the seven principles, seven practices, and seven processes of PRINCE2.
- Recognize how PRINCE2 can be tailored to different project types and sizes.
- Gain knowledge of roles, responsibilities, and governance in PRINCE2 projects.
- Understand key project management concepts, terms, and product-based planning.
- Prepare for the PRINCE2 7 Foundation certification exam.

## Target Audience

- Individuals start a career in project management.
- Project team members looking to understand PRINCE2 methodology.
- Aspiring Project Managers seeking foundational project management knowledge.
- Professionals aiming to work in PRINCE2-based environments.
- Students or career changers are interested in formal project management training.

## Pre-Requisites

No formal prerequisites are required.

- Basic understanding of business processes or projects is beneficial.
- Willingness to learn structured project management techniques.
