

PRINCE2 7 Practitioner Course

Course Duration: 40 Hrs.

Course code: P2 7P

Course Overview

This course provides in-depth training on PRINCE2 7 Practitioner, the latest edition of the globally recognized project management methodology. It equips learners with advanced knowledge and practical skills to apply PRINCE2 principles, practices, and processes in real-world projects. The program focuses on tailoring PRINCE2 to specific project environments and enhancing leadership, adaptability, and governance in project delivery.

What you'll learn?

The course will help students to understand:

- Understand the core principles, practices, and processes of PRINCE2 7.
- Apply PRINCE2 methodology to real-life projects.
- Tailor PRINCE2 to suit different industries and project needs.
- Manage risk, quality, and project governance effectively.
- Gain confidence to pass the PRINCE2 7 Practitioner certification exam.
- Develop strategic decision-making and stakeholder engagement skills.

Target Audience

- Project Managers and Team Leaders seeking formal project management certification.
- Professionals aiming to enhance their PRINCE2 Foundation knowledge.
- Business Analysts and Consultants working on complex projects.
- Project Board Members, Product Owners, or Change Managers.
- Anyone responsible for managing projects in any sector.

Pre-Requisites

PRINCE2 7 Foundation certification (mandatory).

- Familiarity with project management concepts and terminology.
- Basic understanding of organizational project governance.
- Some experience in managing or participating in projects is recommended.
