

PRINCE2 Agile Practitioner Course

Course Duration: 32 Hrs.

Course code: P2AP

Course Overview

The PRINCE2 Agile Practitioner course is designed for professionals who want to combine the governance strength of PRINCE2 with the flexibility and responsiveness of Agile. This course provides advanced-level skills to apply PRINCE2 principles, themes, and processes in Agile environments, ensuring a balanced approach to project management. It focuses on delivering projects quickly while maintaining high-quality standards and robust project controls. The training also prepares participants for the PRINCE2 Agile Practitioner Certification Exam.

What you'll learn?

Apply PRINCE2 principles in Agile project environments.

- Understand how to blend PRINCE2 with popular Agile frameworks such as Scrum, Kanban, and Lean Startup.
- Tailor PRINCE2 processes for iterative delivery and rapid value creation.
- Manage requirements, risks, and stakeholder engagement in Agile projects.
- Use techniques like MoSCoW prioritization, Agile contracts, and timeboxing.
- Lead Agile teams effectively while maintaining governance and control.
- Prepare for the PRINCE2 Agile Practitioner certification exam.

Target Audience

- Project Managers working in or transitioning to Agile environments.
- PRINCE2 certified professionals looking to add Agile expertise.

- Agile practitioners seeking structured governance methods.
- Scrum Masters, Product Owners, and Delivery Managers.
- Team Leaders, Business Analysts, and Change Managers.

Pre-Requisites

PRINCE2 Foundation or PRINCE2 Agile Foundation certification (mandatory).

- Experience working in a project environment is recommended.
- Familiarity with Agile principles and practices is beneficial.
