

Outlining the Record to Report Process in SAP S/4HANA

Course Duration: 24 Hours

Course Code: R2R-S4H

1. Course Overview

The **Outlining the Record to Report Process in SAP S/4HANA** course provides participants with a comprehensive understanding of the Record to Report (R2R) cycle in SAP S/4HANA. This training is designed to help finance professionals and SAP consultants manage financial transactions, reporting, and compliance efficiently within the modern digital core. Delivered by **SSDN Technologies**, a leading **corporate training company**, this course combines conceptual learning with hands-on practice to ensure practical application.

2. What You'll Learn?

- Fundamentals of the Record to Report (R2R) process.
- Financial accounting and closing operations in SAP S/4HANA.
- Data reconciliation and consolidation techniques.
- Configuring R2R processes for compliance and accuracy.
- Best practices for reporting and analytics.
- Integration of R2R with other SAP modules.

3. Target Audience

- Finance professionals and controllers.
- SAP FI/CO consultants and business analysts.
- IT professionals working in SAP financial domains.
- Aspirants for **Record to Report Training** and certification.

4. Pre-Requisites

- Basic knowledge of financial processes.
- Familiarity with SAP ERP or S/4HANA is recommended.

5. Course Content (Modules)
