

# Financial Accounting in SAP S/4HANA - Academy Part II - TS4F02

**Course Duration: 40 Hours**

**Course Code: TS4F02**

## 1. Course Overview

The **Financial Accounting in SAP S/4HANA - Academy Part II** course provides advanced knowledge of financial accounting processes and configuration in SAP S/4HANA. It builds upon the concepts covered in Part I and focuses on asset accounting, financial closing operations, reporting, and integration with other SAP modules. Learners will gain hands-on expertise to configure and manage financial processes, ensuring compliance and efficiency in real-world business environments.

## 2. What You'll Learn?

Participants will explore advanced topics in **SAP S/4HANA Financial Accounting**, including asset accounting, general ledger operations, document handling, financial reporting, and period-end closing. They will also learn about the integration of financial accounting with logistics and controlling, enabling organizations to streamline operations effectively.

## 3. Target Audience

This course is designed for application consultants, finance professionals, project team members, and anyone responsible for implementing or supporting **SAP S/4HANA Financial Accounting**.

## 4. Pre-Requisites

Participants should have completed **Financial Accounting in SAP S/4HANA - Academy Part I (TS4F01)** or possess equivalent foundational knowledge of financial accounting in SAP S/4HANA.

## 5. Course Content (Modules)

- Module 1: Asset Accounting in SAP S/4HANA
- Module 2: Financial Period-End Closing Operations
- Module 3: Integration with Logistics and Controlling
- Module 4: Financial Reporting and Analysis
- Module 5: Document Handling and Configuration
- Module 6: Advanced Topics in General Ledger Accounting
