

# Oracle WebCenter Portal 11g: Administration Ed 1.1

**Course Duration: 24 Hours**

**Course Code: D67994GC10**

## 1. Course Overview

The **Oracle WebCenter Portal 11g: Administration Ed 1.1** course provides learners with the knowledge and skills required to administer, configure, and manage Oracle WebCenter Portal environments. Participants will gain hands-on experience in portal administration, security management, performance optimization, and troubleshooting techniques to ensure efficient deployment and maintenance of WebCenter Portal solutions.

## 2. What You'll Learn?

By the end of this course, you will be able to:

- Understand Oracle WebCenter Portal 11g architecture and components.
- Install, configure, and administer WebCenter Portal.
- Manage users, roles, and security settings.
- Configure navigation models, page templates, and resource catalogs.
- Administer content integration with Oracle WebCenter Content.
- Monitor, tune, and troubleshoot WebCenter Portal performance.
- Apply best practices for backup, recovery, and environment management.

## 3. Target Audience

This course is ideal for:

- Portal Administrators
- System Administrators
- Web Administrators
- Technical Consultants
- Middleware Administrators responsible for WebCenter Portal

## 4. Pre-Requisites

Participants should have:

- Basic knowledge of **Oracle WebLogic Server Administration**
- Familiarity with **web application architecture**
- Understanding of **portal concepts and content management**

## 5. Course Content

### **Module 1: Introduction to Oracle WebCenter Portal 11g**

- Overview of WebCenter Portal features and architecture
- Understanding key components and services

### **Module 2: Installation and Configuration**

- Installing Oracle WebCenter Portal
- Configuring managed servers and domains
- Post-installation tasks

### **Module 3: Security and User Management**

- Managing users, roles, and credentials
- Configuring authentication providers
- Security policies and best practices

### **Module 4: Portal Administration**

- Working with page templates, navigation models, and resource catalogs
- Administering spaces and applications
- Customizing portal look and feel

### **Module 5: Content Integration**

- Integrating Oracle WebCenter Content with WebCenter Portal
- Document services and content repositories
- Content publishing and management

### **Module 6: Performance Monitoring and Tuning**

- Monitoring WebCenter Portal performance
- JVM and resource tuning
- Troubleshooting common issues

### **Module 7: Backup, Recovery, and Maintenance**

- Backup and recovery strategies
- Environment lifecycle management
- Applying patches and upgrades
