

Certified Associate in PMI Agile Certified Practitioner (PMI-ACP) Exam Preparation Course

Course Duration: 40 HRS

Course Code: PMI-ACP-101

Course Overview

The PMI-ACP Exam Preparation Course is designed to equip professionals with the knowledge and skills required to apply Agile practices effectively and prepare for the PMI Agile Certified Practitioner certification exam. This course covers a wide range of Agile methodologies, including Scrum, Kanban, Lean, Extreme Programming (XP), and Test-Driven Development (TDD). Participants will learn how to apply Agile principles to projects, improve team collaboration, and deliver high-value products efficiently.

What you'll learn?

- Comprehensive understanding of Agile principles and practices.
- Knowledge of Agile frameworks like Scrum, Kanban, Lean, and XP.
- Skills to lead Agile teams and manage stakeholder expectations.
- Techniques for adaptive planning and continuous improvement.
- Exam-focused guidance to succeed in the PMI-ACP® certification.

Target Audience

- Project Managers seeking Agile certification.
- Agile team members, Scrum Masters, and Product Owners.
- Professionals working in organizations transitioning to Agile.

- Anyone aiming to enhance their Agile project management expertise.

Pre-Requisites

- Secondary degree (high school diploma, associate's degree, or equivalent).
- At least 21 contact hours of Agile practices training.
- 12 months of general project experience in the last 5 years.
- 8 months of Agile project experience in the last 3 years.
