

Disciplined Agile Senior Scrum Master (DASSM) Course

Course Duration: 16 HRS

Course Code: DASSM-302

Course Overview

The Disciplined Agile Senior Scrum Master (DASSM) Course is designed for experienced agile practitioners looking to enhance their leadership skills and broaden their knowledge of Disciplined Agile (DA). This course goes beyond basic agile and scrum practices, equipping professionals with advanced strategies for enterprise-level agility, people management, scaling approaches, and value delivery optimization. Participants will gain the confidence to guide teams, manage challenges, and lead complex projects effectively using DA principles and techniques.

What you'll learn?

- Apply Disciplined Agile to solve advanced team and organizational challenges.
- Lead and guide teams in complex environments with multiple stakeholders.
- Manage conflicts, foster team collaboration, and improve decision-making.
- Explore advanced agile and lean techniques beyond Scrum.
- Scale agile practices across teams and enterprises.

- Optimize value delivery by selecting context-specific practices.
- Prepare for the PMI DASSM certification exam.

Target Audience

- Agile practitioners and Scrum Masters with experience leading teams.
- Project managers, product owners, and program managers working in agile environments.
- Professionals seeking to advance from basic agile knowledge to senior-level expertise.
- Leaders responsible for scaling agile across teams or departments.
- Candidates preparing for the PMI Disciplined Agile Senior Scrum Master (DASSM) certification.

Pre-Requisites

- Two years of agile team leadership experience (Scrum Master, Product Owner, Agile Coach, etc.).
- Completion of the Disciplined Agile Scrum Master (DASM) course (recommended).
- Familiarity with agile and lean concepts, practices, and terminology.
