

Disciplined Agile Value Stream Consultant (DAVSC) Course

Course Duration: 24 HRS

Course Code: DAVSC-301

Course Overview

The Disciplined Agile® Value Stream Consultant (DAVSC) Course is designed to equip professionals with the skills to accelerate value delivery within organizations by optimizing processes, systems, and practices. This course enables participants to identify, design, and implement value streams that align business strategy with customer needs, driving organizational agility and performance. Through a combination of theory, frameworks, and real-world applications, learners will develop the ability to foster continuous improvement and deliver outcomes that maximize value creation.

What You'll Learn?

- Understand the core principles of value streams and their role in business agility.
- Analyze organizational structures and processes to identify bottlenecks and inefficiencies.
- Design, optimize, and implement effective value streams.
- Apply Disciplined Agile® tools to improve business outcomes.
- Facilitate alignment between organizational goals and customer needs.

- Lead change initiatives to create a culture of continuous improvement.
- Gain the skills to act as a consultant guiding enterprises toward value-driven delivery.

Target Audience

- Experienced agile practitioners and coaches.
- Enterprise agile leaders and transformation consultants.
- Program managers, portfolio managers, and business leaders.
- Change agents aiming to align organizational strategy with execution.
- Professionals pursuing advanced Disciplined Agile certifications.

Pre-Requisites

- Active Disciplined Agile Senior Scrum Master (DASSM) certification or higher.
- Experience in agile practices, frameworks, and organizational transformation.
- Familiarity with lean, agile, and value stream concepts is recommended.
