

PMI-PBA Exam Preparation (7 Days) Course

Course Duration: 56 HRS

Course Code: PMI-PBA- 7D

Course Overview

The PMI Professional in Business Analysis (PMI-PBA®) Exam Preparation Course is an intensive 7-day training program designed to prepare professionals for the PMI-PBA® certification exam. This course equips learners with a deep understanding of business analysis principles, tools, and techniques aligned with PMI standards. Through practice tests, case studies, and interactive sessions, participants will gain the confidence and knowledge required to clear the PMI-PBA® exam and apply business analysis skills effectively in real-world projects.

What you'll learn?

- Core concepts of business analysis aligned with PMI standards
- Effective techniques for requirements management and elicitation
- How to analyze, document, and validate business needs
- Practical application of business analysis tools and methods
- Exam strategies, tips, and practice questions for PMI-PBA® success
- Real-world case studies to strengthen analytical skills

Target Audience

- Business analysts preparing for the PMI-PBA® certification exam
- Project managers involved in requirements management

- Product managers and business consultants
- Systems analysts and solution architects
- Professionals seeking to validate their business analysis expertise with a global certification

Pre-Requisites

- A minimum of 35 hours of business analysis education
- Bachelor's degree holders: 4,500 hours of business analysis work experience within the last 8 years
- Secondary degree holders: 7,500 hours of business analysis work experience within the last 8 years
- Familiarity with project management concepts is recommended
