

PMI-PMP Exam Preparation (10 Days) Course

Course Duration: 32 HRS

Course Code: PMP-401

Course Overview

The PMI-PMP Exam Preparation (10 Days) Course is a comprehensive training program designed to equip professionals with the knowledge and skills required to pass the Project Management Professional (PMP)[®] certification exam. The course provides a detailed understanding of the PMBOK[®] Guide framework, project management processes, and exam strategies. With focused instruction, practice tests, and real-world scenarios, participants will build confidence to succeed in one of the world's most recognized project management certifications.

What you'll learn?

- In-depth knowledge of the PMBOK[®] Guide process groups and knowledge areas
- Advanced project management concepts and tools
- Exam-focused tips, tricks, and strategies to pass the PMP exam
- How to manage projects effectively with scope, time, cost, quality, and risk controls
- Leadership, stakeholder engagement, and communication skills for project success
- Practice questions and mock exams aligned with the PMP exam structure

Target Audience

- Project managers seeking the PMP® Certification
- Professionals managing projects across industries
- Team leaders, supervisors, and coordinators aiming for leadership roles
- Program managers, consultants, and IT professionals working on complex projects
- Anyone seeking to enhance their project management career with a globally recognized credential

Pre-Requisites

- Secondary degree (high school diploma, associate's degree, or equivalent) with 7,500 hours of project management experience and 35 hours of project management education, OR
- Four-year degree (bachelor's or equivalent) with 4,500 hours of project management experience and 35 hours of project management education
- Prior exposure to project management concepts is recommended
