

PMP Exam Prep Train the Trainer (PMP Course)

Course Duration: 40 HRS

Course Code: PMP-TTT-401

Course Overview

The PMP Exam Prep Train the Trainer Course is designed for professionals who aspire to become certified trainers for the Project Management Professional (PMP®) certification. This program equips participants with advanced knowledge of PMP concepts, teaching methodologies, facilitation skills, and classroom management techniques required to deliver high-quality PMP training sessions. By completing this course, trainers will be prepared to effectively guide learners through PMP exam preparation with confidence and expertise.

What you'll learn?

- Deep understanding of PMP® exam content outline and domains
- Effective training methodologies for adult learning and knowledge transfer
- How to design and deliver engaging PMP® training sessions
- Classroom facilitation skills and interactive learning strategies
- Exam-focused practice techniques, case studies, and simulations
- Best practices for managing diverse learner groups and queries
- Tools to evaluate learner readiness for PMP® certification

Target Audience

- Experienced project managers who want to transition into training roles
- PMP® certified professionals seeking to become accredited trainers
- Corporate trainers and instructors specializing in project management
- Consultants and mentors preparing professionals for PMP® certification
- Training organizations or individuals aspiring to deliver PMP® exam prep programs

Pre-Requisites

- Valid **PMP® Certification** from PMI (mandatory)
- Strong project management experience with leadership exposure
- Prior experience in training, mentoring, or coaching (preferred)
- Familiarity with PMI standards and the PMBOK® Guide
