

Create Pixel Perfect Reports using Analytics Cloud Course

Course Duration: 40 Hrs.

Course code: D92698

Course Overview

The Create Pixel Perfect Reports using Analytics Cloud Course is designed to equip learners with the skills to design, build, and deliver highly formatted, professional reports within Oracle Analytics Cloud (OAC). Participants will explore the tools and techniques required to create pixel-perfect reports that meet enterprise-grade reporting standards, ensuring accuracy, visual appeal, and compliance with business requirements.

What you'll learn?

- Understand the features of Oracle Analytics Cloud for report creation.
- Design and develop pixel-perfect reports with advanced formatting.
- Create templates, layouts, and parameterized reports.
- Integrate data models and ensure accurate report generation.
- Deploy and distribute reports to end users securely.
- Apply best practices for managing, scheduling, and automating reports.

Target Audience

- Business Intelligence Developers
- Report on Developers and Analysts
- Data Visualization Specialists
- Database Administrators supporting BI environments

- IT Professionals working with Oracle Analytics Cloud

Pre-Requisites

- Basic knowledge of SQL and database concepts.
- Familiarity with Oracle Analytics Cloud or similar BI tools.
- Understanding business reporting requirements is recommended.
