

Siebel Open UI Foundations Course

Course Duration: 16 Hrs.

Course code: D72897

Course Overview

The Siebel Open UI Foundations Course introduces learners to the fundamentals of Siebel Open UI, a modernized user interface framework for Siebel CRM. This course equips participants with the skills to understand Open UI architecture, configure the client, customize user experiences, and extend functionalities. With practical exercises and real-world scenarios, learners will gain hands-on knowledge to implement flexible, responsive, and user-friendly CRM applications using Open UI.

What you'll learn?

- Understand Siebel Open UI architecture and framework.
- Configure and customize Siebel Open UI client.
- Modify Siebel applets, views, and screens.
- Use JavaScript, HTML, and CSS for Open UI customization.
- Implement responsive designs for different devices.
- Extend Siebel functionality with plug-ins and PM/PR logic.
- Apply best practices for deployment and maintenance.

Target Audience

- Siebel Developers and Configurators
- Technical Consultants and Solution Architects
- CRM Administrators
- IT Professionals working on Siebel CRM projects
- Anyone seeking skills in customizing and modernizing Siebel applications

Pre-Requisites

- Basic knowledge of Siebel CRM architecture and configuration.
- Familiarity with JavaScript, HTML, and CSS is beneficial.
- Understanding of relational databases and SQL is recommended.
