

ADM945 – Authorization Concept for SAP Fiori on SAP S/4HANA

Course Duration: 24 Hours

Course Code: ADM945

1. Course Overview

The **ADM945 Course** focuses on the authorization concept and security framework for SAP Fiori in an SAP S/4HANA environment. Participants will learn how to configure, manage, and monitor role-based access control (RBAC) for SAP Fiori apps while ensuring secure user access and compliance. Through the **ADM945 – Authorization Concept for SAP Fiori on SAP S/4HANA Training**, learners gain practical expertise in designing secure authorization structures, assigning roles, and troubleshooting authorization issues. This course also prepares participants for the **SAP S/4HANA Security and Authorization Certification**.

2. What You'll Learn

- Overview of SAP Fiori architecture and launchpad
- Fundamentals of SAP authorization concepts in S/4HANA
- Role-based access control (RBAC) for SAP Fiori apps
