

# ISO 28000 Lead Auditor Course

**Course Duration: 40 Hrs.**

**Course Code: ISO28000-LA**

## Course Overview

The ISO 28000 Lead Auditor Course equips participants with the knowledge and skills to plan, conduct, report, and follow up on audits of a Supply Chain Security Management System (SMS-SC) in accordance with ISO 28000 and ISO 19011 guidelines. The course enables auditors to assess compliance, identify risks, and provide recommendations to enhance supply chain security.

## What You'll Learn?

In this course, you will learn auditing principles and techniques specific to ISO 28000, how to evaluate evidence, identify nonconformities, conduct effective audit interviews, report findings, and lead an audit team to ensure continual improvement of supply chain security management systems.

## Target Audience

This course is designed for internal and external auditors, supply chain managers, security officers, compliance professionals, consultants, and anyone responsible for auditing or ensuring compliance in supply chain security management.

## Pre-Requisites

Participants should have basic knowledge of ISO 28000 requirements and management systems. Prior auditing experience or knowledge of supply chain security is advantageous.
