

ISO 29001:2020 Lead Auditor Course

Course Duration: 40 Hrs.

Course Code: ISO29001-LA

Course Overview

The ISO 29001:2020 Lead Auditor Course provides participants with the skills and knowledge to plan, conduct, report, and follow up on audits of a Quality Management System (QMS) for the petroleum, petrochemical, and natural gas industries in accordance with ISO 29001:2020 and ISO 19011 guidelines. The course enables auditors to assess compliance, identify nonconformities, and recommend improvements for effective quality management.

What You'll Learn?

In this course, you will learn auditing principles and techniques specific to ISO 29001:2020, how to evaluate audit evidence, identify nonconformities, conduct audit interviews, report findings, and lead an audit team to ensure continual improvement in quality management systems within the oil and gas sector.

Target Audience

This course is designed for internal and external auditors, quality managers, compliance officers, consultants, and professionals responsible for auditing or ensuring compliance in the petroleum, petrochemical, and natural gas industries.

Pre-Requisites

Participants should have a basic understanding of ISO 29001:2020 requirements and quality management systems. Prior auditing experience or knowledge of the oil and gas industry is advantageous.

Course Content
