

ISO 31000 Transition Course

Course Duration: 16 Hrs.

Course Code: ISO31000-TC

Course Overview

The ISO 31000 Transition Course is designed to help professionals update their knowledge and skills based on the latest revisions and updates of the ISO 31000 Risk Management standard. It provides an in-depth understanding of the changes introduced in the updated version and their impact on existing risk management frameworks, ensuring organizations can smoothly transition and remain compliant.

What you'll learn?

In this course, learners will understand the key differences between the previous and current versions of ISO 31000, the revised principles and guidelines, and how to adapt organizational risk management processes accordingly. Participants will gain practical insights into implementing updated risk strategies, aligning processes with best practices, and ensuring a seamless transition.

Target Audience

This course is intended for risk managers, compliance officers, auditors, consultants, senior executives, and professionals responsible for implementing or maintaining risk management systems who need to stay aligned with the latest ISO 31000 updates.

Pre-Requisites

Participants should already have foundational knowledge of ISO 31000 or prior

experience in risk management practices. A background in compliance, auditing, or management systems will be beneficial for effective learning.
