

ISO 37002 Introduction Course

Course Duration: 8 Hrs.

Course Code: ISO37002-INT

Course Overview

The ISO 37002 Introduction Course provides a comprehensive understanding of the principles and guidelines for implementing and maintaining an effective whistleblowing management system. This course is designed to help organizations promote transparency, accountability, and ethical behavior by establishing mechanisms for reporting unethical practices safely and effectively. Learners will gain insight into the structure, requirements, and benefits of ISO 37002, enabling organizations to foster a culture of trust and integrity.

What You'll Learn?

In this course, you will learn the fundamentals of whistleblowing management, the structure and clauses of ISO 37002, key processes for reporting and handling concerns, and how organizations can foster transparency and compliance.

Target Audience

This course is ideal for compliance officers, managers, auditors, HR professionals, employees, and anyone interested in understanding the basics of whistleblowing management systems and ethical reporting practices.

Pre-Requisites

There are no formal prerequisites; however, a general awareness of organizational compliance, ethics, or management systems will be helpful.
