

# ISO 37101 Foundation Course

**Course Duration: 16 Hrs.**

**Course Code: ISO37101-FND**

## Course Overview

The ISO 37101 Foundation Course provides participants with an introduction to Sustainable Development Management Systems (SDMS) based on ISO 37101. This course explains the core principles, structure, and benefits of implementing SDMS to support sustainable development, optimize resource use, and enhance organizational performance.

## What You'll Learn?

In this course, you will learn the fundamental concepts of sustainable development management, the key clauses of ISO 37101, the benefits of adopting an SDMS, and how organizations can implement basic sustainability practices.

## Target Audience

This course is ideal for beginners, sustainability team members, environmental managers, employees, and anyone interested in understanding the basics of ISO 37101 and sustainable development management systems.

## Pre-Requisites

There are no formal prerequisites; however, basic awareness of sustainability, organizational management, or environmental practices will be helpful.
