

ISO 37101 Lead Auditor Course

Course Duration: 40 Hrs.

Course Code: ISO37101-LA

Course Overview

The ISO 37101 Lead Auditor Course provides participants with the knowledge and skills required to audit a Sustainable Development Management System (SDMS) in accordance with ISO 37101. The course equips learners to plan, conduct, report, and follow up on audits, ensuring organizations comply with sustainability standards and achieve continual improvement.

What You'll Learn?

In this course, you will learn the principles and requirements of ISO 37101, audit planning and execution, evaluating evidence, identifying nonconformities, and reporting findings. You will also gain the competence to lead audit teams and support organizations in achieving sustainability objectives.

Target Audience

This course is suitable for sustainability managers, auditors, consultants, compliance officers, environmental managers, and professionals responsible for implementing or auditing sustainable development management systems.

Pre-Requisites

Participants should have a basic understanding of management systems or sustainability principles. Prior auditing experience or knowledge of ISO management standards is beneficial.
