

# ISO 37101 Lead Implementer Course

**Course Duration: 16 Hrs.**

**Course Code: ISO37101-LI**

## Course Overview

The ISO 37101 Lead Implementer Course equips participants with the knowledge and skills to establish, implement, manage, and continually improve a Sustainable Development Management System (SDMS) based on ISO 37101. The course focuses on practical strategies to support sustainable development initiatives, optimize resource management, and align organizational practices with sustainability goals.

## What You'll Learn?

In this course, you will learn how to interpret ISO 37101 requirements, design and implement an SDMS framework, manage sustainability performance indicators, integrate risk-based thinking, and lead organizations through certification and continual improvement processes.

## Target Audience

This course is designed for sustainability managers, compliance officers, consultants, project managers, environmental professionals, and anyone responsible for implementing or managing sustainable development management systems.

## Pre-Requisites

A basic understanding of management systems or sustainability principles is recommended. Prior experience in environmental or organizational management is advantageous but not mandatory.

## Course Content

**Module 1:** Introduction to ISO 37101 and Sustainable Development Management Principles

**Module 2:** Planning and Establishing a Sustainable Development Management System

**Module 3:** Implementing ISO 37101 Requirements and Controls

**Module 4:** Monitoring, Measuring, and Improving Sustainability Performance

**Module 5:** Documentation, Reporting, and Communication Strategies

**Module 6:** Preparing for Certification and Maintaining Compliance

**Module 7:** Practical Exercises, Case Studies, and Exam Preparation
