

ISO 38500 IT Corporate Governance Manager Course

Course Duration: 24 Hrs.

Course Code: ISO38500-CGM

Course Overview

The ISO 38500 IT Corporate Governance Manager Course is designed to equip participants with the skills and knowledge to effectively manage and oversee IT governance in alignment with ISO 38500. The course focuses on implementing best practices for IT decision-making, risk management, and aligning IT strategies with organizational objectives.

What You'll Learn?

In this course, you will learn how to establish IT governance frameworks, manage IT-related risks, ensure compliance with ISO 38500 principles, optimize IT resource usage, and support sustainable business performance through effective governance practices.

Target Audience

This course is ideal for IT managers, corporate governance professionals, compliance officers, project managers, executives, and individuals responsible for overseeing IT governance and strategic alignment within organizations.

Pre-Requisites

Participants should have a basic understanding of IT management, organizational governance, or management systems. Prior experience in IT operations or management is advantageous.
