

# ISO 38500 Introduction Course

**Course Duration: 8 Hrs.**

**Course Code: ISO38500-INT**

## Course Overview

The ISO 38500 Introduction Course provides participants with a basic understanding of Corporate Governance of Information Technology (IT) based on ISO 38500. This course introduces the core principles, framework, and benefits of IT governance, helping organizations ensure that IT supports business objectives and sustainable decision-making.

## What You'll Learn?

In this course, you will learn the fundamental concepts of IT governance, the key clauses of ISO 38500, the roles of governing bodies, and how organizations can manage IT resources responsibly and effectively.

## Target Audience

This course is ideal for beginners, IT managers, executives, compliance officers, project managers, and employees interested in understanding the basics of IT governance and ISO 38500.

## Pre-Requisites

There are no formal prerequisites; however, a basic understanding of organizational IT processes or governance concepts will be helpful.
