

# ISO 38500 Lead IT Corporate Governance Manager Course

**Course Duration: 40 Hrs.**

**Course Code: ISO-LITCGM**

## Course Overview

The ISO 38500 Lead IT Corporate Governance Manager Course provides participants with advanced knowledge and skills to lead the implementation and management of IT governance frameworks in accordance with ISO 38500. The course focuses on strategic decision-making, risk management, and aligning IT with organizational objectives for optimal performance and compliance.

## What You'll Learn?

In this course, you will learn how to lead IT governance initiatives, establish and oversee IT governance frameworks, implement best practices for risk and compliance management, ensure alignment of IT strategies with business goals, and drive continual improvement across IT governance processes.

## Target Audience

This course is ideal for senior IT managers, governance professionals, compliance officers, executives, project managers, and individuals responsible for leading IT governance and strategic IT alignment within organizations.

## Pre-Requisites

Participants should have prior knowledge of IT management, corporate governance, or ISO 38500 principles. Experience in IT leadership or governance roles is recommended.
