

ISO 45001 Lead Auditor & Lead Implementer Combo Course

Course Duration: 56 Hrs.

Course Code: ISO45001-LA&LI

Course Overview

The ISO 45001 Lead Auditor & Lead Implementer Combo Course is designed to provide participants with comprehensive expertise in both auditing and implementing Occupational Health and Safety Management Systems (OHSMS) based on ISO 45001. This dual program equips learners with the skills to establish, manage, and audit OHSMS effectively, enabling organizations to achieve compliance, enhance safety performance, and reduce workplace risks.

What You'll Learn?

In this combo course, you will learn how to plan, implement, and manage an ISO 45001 OHSMS, conduct internal and external audits in accordance with ISO 19011 standards, identify hazards and risks, evaluate compliance, and lead organizations through the certification process. You will also gain the leadership and practical skills needed to act as both an implementer and auditor.

Target Audience

This course is intended for health and safety managers, compliance officers, consultants, auditors, implementers, and professionals who want to develop dual expertise in implementing and auditing ISO 45001 systems.

Pre-Requisites

A basic understanding of ISO management systems or occupational health and safety practices is recommended, but no mandatory prerequisites are required. Prior knowledge of ISO 45001 is beneficial.

Course Content

Module 1: Introduction to ISO 45001 and OHSMS Principles

Module 2: Planning and Implementing ISO 45001 Requirements

Module 3: Risk Assessment, Hazard Identification, and Control Measures

Module 4: Internal Audit Preparation and Execution (ISO 19011 Guidelines)

Module 5: External Audit Techniques and Certification Process

Module 6: Roles and Responsibilities of Lead Implementers and Auditors

Module 7: Case Studies, Practical Exercises, and Exam Preparation
