

ISO 50001:2018 Transition Course

Course Duration: 16 Hrs.

Course Code: ISO50001-2018

Course Overview

The ISO 50001:2018 Transition Course is designed to help participants understand the key changes from the previous version of ISO 50001 to the 2018 revision. It focuses on the updated requirements, High-Level Structure (HLS), and new approaches to energy management, enabling professionals and organizations to smoothly transition and maintain compliance with the latest standard.

What You'll Learn?

In this course, you will learn the differences between ISO 50001:2011 and ISO 50001:2018, the updated terminology and structure, the importance of risk-based thinking, leadership involvement, and the steps required for an effective transition to the 2018 version.

Target Audience

This course is ideal for energy managers, compliance officers, auditors, consultants, ISO 50001 practitioners, and organizations already certified to ISO 50001:2011 who need to transition to the 2018 version.

Pre-Requisites

Participants should have prior knowledge of ISO 50001:2011 or experience in energy management systems (EnMS) to fully benefit from this transition course.

Course Content

Module 1: Introduction to ISO 50001 and Overview of Energy Management Systems

Module 2: Key Changes from ISO 50001:2011 to ISO 50001:2018

Module 3: High-Level Structure (HLS) and Risk-Based Thinking

Module 4: Updated Requirements and Leadership Roles

Module 5: Transition Steps, Implementation Strategies, and Certification Process
