

# ISO 55001 Introduction Course

**Course Duration: 8 Hrs.**

**Course Code: ISO55001-INT**

## Course Overview

The ISO 55001 Introduction Course provides participants with a basic understanding of Asset Management principles and the requirements of ISO 55001. This course introduces the structure, key concepts, and benefits of implementing an Asset Management System (AMS) to enhance organizational efficiency, performance, and risk management.

## What You'll Learn?

In this course, you will learn the fundamental concepts of asset management, the key clauses of ISO 55001, the benefits of adopting an AMS, and how organizations can optimize asset lifecycle management and decision-making processes.

## Target Audience

This course is ideal for beginners, employees, asset management team members, operations staff, maintenance personnel, and anyone interested in understanding the basics of ISO 55001 and asset management systems.

## Pre-Requisites

There are no formal prerequisites; however, a basic awareness of organizational operations or asset management practices will be helpful.
