

NIS 2 Directive Foundation Course

Course Duration: 16 Hrs.

Course Code: NIS2-FND

Course Overview

The NIS 2 Directive Foundation Course provides participants with a comprehensive understanding of the new EU cybersecurity directive and its impact on organizations. It introduces the key requirements, scope, and objectives of the NIS 2 Directive, focusing on strengthening cybersecurity resilience, compliance obligations, and incident response capabilities across essential and important entities. This course lays the foundation for professionals who want to ensure their organizations align with the latest regulatory requirements.

What you'll learn?

In this course, you will learn the core principles of the NIS 2 Directive, including its objectives, scope, and legal implications. You will gain knowledge about compliance obligations, security measures, governance, reporting duties, and incident management requirements under the directive. The course will also enable you to understand the roles and responsibilities of stakeholders, and how organizations can adopt a proactive approach to strengthen cybersecurity resilience and regulatory alignment.

Target Audience

This course is designed for IT managers, compliance officers, risk managers, cybersecurity professionals, data protection officers, consultants, and individuals involved in governance and regulatory compliance within organizations impacted by the NIS 2 Directive.

Pre-Requisites

There are no mandatory prerequisites for this course. However, a basic understanding of information security, risk management, or regulatory compliance will be helpful to maximize learning outcomes.
